REGIONAL PIONEER

OVERVIEW

COMPANY PROFILE 2025

Founded in 1997

- ASA is a pioneer in providing cutting edge solutions for automation and electrical engineering across various infrastructure industries in the MENA and Asia Pacific
- Over 25 years of success, ASA is now recognized as an integrated electrical and automation EPC contractor

- Egypt
- ASA (Saudi)
- Iraq
- Tanzania
- kenya
- ASA (PH)
- Honduras

ASEC AUTOMATION

REGIONAL PIONEER

CORE GOALS

COMPANY PROFILE 2025

CORE GOALS

VISION

To be the first electrical contractor of choice that offers its clients sustainable growth by stimulating the positive impact of energy saving technologies, renewable energy, and remote solutions.

MISSION

To put our clients' goals and needs at the center of our integrated Integrated Service/ technology service instaed of elecatrical contractor.

BACKGROUND& MILESTONES

1997

Foundation

ASEC Automation (ASA) was established as a junior member of the ASEC Holding family.
To pioneer in delivering integrated electrical contracting services.

2004

Reinforcement

Al QalaaHoldings acquisition of ASEC Holding has been considered a reviving push for the Arab Swiss Engineering Company.
Which by result has given ASEC Automation a firm footing in a growing and competitive electrical contracting market.

NOW

Sustainability

ASA embraces a maturity phase, where it's capable of recognizing the changes in the local & global industry.
With a plan of continuing to monitor and quickly adopt its lines of business and services to sustain its 25-year record of expertise.

EPC CONTRACTING

COMPANY PROFILE 2025

EPC CONTRACTING

Backed with over 25 years of experience as an EPC contractor, ASA has a proven track record in executing Successful Projects covering a wide range of sectors across the industrial and non-industrial facilities.

1. ENGINEERING

Investing significantly in all available software tools dedicated to the electrical and automation engineering, ASA Scope Includes:

Electrical:

- System Studies.
- Cable Servicing.
- Lighting Earthing, Lightning Protection.
- Light Current.
- As-Built Documentation.

Automation:

- Concept Developing.
- Programming.
- Diagnostic Management Control.
- Process Control.
- Technical Assistance.

2. PROCUREMENT

Combining our global network of procurement centers with our local knowledge, ASA Scope Includes:

- Transformers
- Switch Gears.
- All Types of Bus Ducts & Cable Trays.
- All Types of Cable.
- AC\DC Drives.
- Soft Starters.
- All Types Of Cable Termination.
- Automation Systems.

3. CONSTRUCTION

Carrying out a large scale of constructing buildings, in frastructure or both, ASA Scope Includes:

- Erection Supervision.
- H.V, M.V. and L.V. Electrical Installation.
- Communication.
- Instrumentation
- Start up and Commissioning.
- Technical Assistance.
- Audit.

4. TRAINING AND POST START UP

Delivered by highly qualified engineers, technicians and professionals, ASA Scope Includes:

- Standard Office Training.
- On-site Training.

WORKSHOPS

- **PANEL ASSEMBLY WORKSHOP**
- **REWINDING WORKSHOP**

COMPANY PROFILE 2025

WORKSHOPS

ASA Workshops were established with Well-equipped facilities managed by a team of experts in designing and building all types of electrical switch boards & control panels. Besides, offering a wide range of Maintenance-related services to rewind\repair motors with a customer-oriented, timely-performance, and quality-driven basis.

LOCATED IN CAIRO, ALEX FREEZONE, ASA WORKSHOPS EXECUTE:

- Low Voltage Distribution Boards (LVDB).
- Motor Control Centers (MCC).
- Auxiliary Control Centers (ACC).
- Marshaling Panel Logics (MPL).
- Marshaling Panel Instrumentations (MPI).
- Lighting Panels.
- Power Factor Correction Panels.
- Main Panel Boards / Switchboards
- Sub-main Panel Boards
- Final Distribution Boards
- Synchronizing Panel
- Automatic Transfer Switch (ATS)
- Manual Transfer Switch (MTS)
- Power Factor Correction Panel (APFC)
- Lighting Control Cabinets
- Motor / Pump Control Panels
- BMS / DDC Control Cabinets (HVAC Control Systems)
- Motor Control Centers (MCC)
- Load Center Cabinets
- Variable Speed Drives Cabinets
- PLC and Industrial Control Panels

- Customs free (Overseas projects).
- Sales tax-free (Overseas projects).
- Proximity to the Imports/Exports Ports (Suez & Alexandria).
- Heavy Infrastructure for Exportation and Importation.
- Strategic Routing Flexibility for Being in Alexandria and Suez.

OUR REWINDING WORKSHOP SCOPE INCLUDES:

- Motors Services
- Motors Testing
- On-Site Services
- MV Motors Overhaul
- Stator
- SR Motors
- Motor Assembly
- On-site After Motor Overhaul

EXPERTISE

OUR BUSINESS UNITS

AUTOMATION

COMPANY PROFILE 2025

AUTOMATION

ASEC AUTOMATION has a solid ground to provide complete engineering studies for any kind of projects that need one company to do the job in both electrical and Automation, which gives the strength of integration. ASA provides the complete electrical engineering, specification and design covering all loads and power sources in any type of project/ facility (Industrial, power, water, residential, commercial, etc...).

Our supplies are based on known electrical product manufacturers where we integrate these products in our workshops according to local and international standards. As EPC is a one of the main business units in our company, ASA is investing significantly in all available software tools dedicated to the electrical and automation engineering in order to meet our clients requirements, and the broad spectrum of standards, codes and specifications defined for any process for any industry.

EXPERTISE

OUR BUSINESS UNITS

OPERATION AND MAINTENANCE

COMPANY PROFILE 2025

OPERATION AND MAINTENANCE / FM

With a maintenance team of around 250 qualified and experienced staff, ASA keeps expanding and developing its services through long-term and overhauling projects to include all types of electrical equipment commissioning and measurement, during an emergency and planned shutdown to meet and match the clients' requirements.

1. LONG TERM PROJECTS & SERVICE AGREEMENTS

With a maintenance team of around 250 qualified and experienced staff, ASA keeps expanding and developing its services through long-term and overhauling projects to include all types of electrical equipment commissioning and measurement, during an emergency and planned shutdown to meet and match the clients' requirements.

2. OVERHAULING PROJECTS

In addition to the long term and service agreements projects, ASA carries out overhauling electrical maintenance of the plant electrical equipment across Egypt as well as globally.

3. EQUIPMENT COMMISSIONING

ASA team delivers commissioning activities for all electrical equipment such as LV & MV Switchgear, drives, motors and instruments, besides performing technical audit for the plant electrical equipment to define the required overhauling tasks for such equipment.

4. EQUIPMENT TESTING & MEASURING

As predictive maintenance plays a vital role in reducing the equipment down time and maintenance service cost, ASA team brings you the newest technology to perform the latest measurements in motors analysis, thermal image, network power quality and circuit breaker required for electrical equipment stability and proper performance.
